

# Xpand IT Full Stack Challenge

The Xpand IT team is interested in your professional profile so we decided to move forward and check your technical skills as well. To do that we present you with this challenge. It contains all the information you need to develop and deliver.

- [UX](#)
- [React](#) or [Angular](#)
- [Spring](#) or [Node.js](#)

Mark is the persona here. He is a movie enthusiast and all requirements are to make Mark happy with this application, so pay attention to the list below and check these requirements.

REQUIREMENT	DESCRIPTION	MOSCOW
RQ001	<i>Mark wants to see a list of all movies, using infinite scroll he may scroll down and have the list filled with more movies until the end of the list.</i>	<b>MUST HAVE</b>
RQ002	<i>Mark wants to check particular movie detail in a popup that is triggered by a click on a movie on the movies list.</i>	<b>MUST HAVE</b>
RQ003	<i>Mark wants to see the Top 10 movies by revenue and also see the Top 10 movies by revenue for a particular year.</i>	<b>MUST HAVE</b>

You have 10 days to work on your solution. By the end of the period (or before), you'll need to share with us open repositories with your solution. Please also describe the steps to run the applications in README files, as well as any other information you may believe, is worth sharing about the solution.

**Good Luck!**
